

Health care for children is parents' responsibility.
Let's pay attention to monthly health care information!

Do you know Health calendar?

The Tuberculosis Prevention Law revised. Procedure of BCG vaccination for babies and toddlers will be changed.

Do you know Health Calendar? This is the calendar of health care issued by city/town hall, which gives you information of annual public service program for your health. Here we explain you the revised BCG vaccination procedure for babies and toddlers, effective on April.

Direct BCG vaccination without Tuberculin reaction test from April

— Followed the revised Tuberculosis Prevention Law, direct BCG vaccination procedure without Tuberculin reaction test will be introduced from April. Children of five-month-old and under are eligible to vaccinate.

As individual vaccination is applied in Fujimishi, those who are eligible should vaccinate at the designated medical institutions.

By the way, children of six-month-old and over will not be able to vaccinate individually from April, so those children should apply group vaccination at the Health Promotion Center by end of March.

(Until March 31st, 2005)

Current

- : Eligibility : 3-month-old to under 48-month-old
- : Vaccination : if Tuberculin reaction test shows negative, vaccinate BCG
- : Place : Health Promotion Center

(From April 1, 2005)

Revised

- : Eligibilities : less than 6-month-old
- : Vaccination : Direct BCG vaccination (without Tuberculin reaction test)
- : Place : Medical institutions in Fujimishi
