

# Reflect real opinion of foreign residents on the city policy

Fujimino International Cultural Exchange Center will carry out questionnaires surveys and forums of foreign residents on city policies and services. We believe that it is also our responsibility to know their problems and needs in everyday life and report them to the city hall to remold the city where everyone can live easily. In Kawasaki and Yokohama city, each city office has a foreign residents' forum periodically to know and reflect their opinions on city policies and services. We would like to introduce such a system here in our community. There may be some difficulty and take much time to do it, but we will do our best for this project.

## For application, please choose one of the following three cases

- Case A . Those who can answer questionnaire
- Case B . Those who can join foreign residents' forum
- Case C . Those who can answer questionnaire and join forum

Your opinion will change the city!

Your collaboration will remold the city!

## Questionnaire contains . . .

### We want to know your idea, view, or opinion on the following.

Do you have any inconvenience or problem here in this community?

Who are you asking or getting an advice for?

How can you get information on everyday life?

Write public policies or services in your home town better than here in Japanese community, if any.

What are better public policies or services in Japan than in your country?

- If you can apply for questionnaire survey, we will mail you later. If you can join foreign residents' forum, we will inform you more details (first forum slated Jan.15<sup>th</sup>, 13:30 ~ ).

**For application, please call or fax (049-275-0371)**

We get prepared some gifts in token of our gratitude for application. Please encircle one of the following.      Case A      Case B      Case C

Where questionnaire to be sent to : Your address · Name · TEL No. · FAX No.

Or call Fujimino International Cultural Exchange Center 049-275-0370
