

# Socializing through a skillful way of taking out garbage

The increasing quantity of garbage deteriorates finance and environment. It is very serious issue for citizens. Especially there are many troubles which are made by bad manners in way of taking out garbage. Please help to follow manners for garbage on purpose of effective use of resources and a clean city. In addition, let's keep in your mind that garbage collection calendars differs in cities and area.

## ① Resource

Bottle, can, pet bottle, newspaper, magazine, paper, cardboard, cloth, plastic all belong to resource. Papers and clothes should not be taken out in rainy day. For more detail of classification and collection day, please contact your nearest public office. In Fujimi city and Fujimino city, environmental division is in charge of it.

## ② Inflammable rubbish

Kitchen garbage, cooking oil, shoes, rubber products, disposable nappy, (fills should be taken out), waste paper, cushion, and stuffed toy are inflammable. You need to remove water well when taking out kitchen garbage. Thus, the size of inflammable rubbish should be less than 30cm in terms of length. As for bigger size, it belongs to bulky garbage which should be taken out in collection day of bulky garbage.

## ③ Noninflammable rubbish

Metal products like Pot and pan, cosmetic bottle, vase, flower pot (unglazed pottery), hair dryer, umbrella rib, painting can, small electronic products (rice cooker, microwave oven, radio cassette recorder, stove <batteries · oil should be taken out>, clearer etc) glass, china, electronic bulb, and kitchen knife (the edge need to be wrapped in paper)

## ④ Bulky garbage

Large-sized electronic products (microwave oven, electronic fan, kotatsu, gas stove, over 50cm stove), large furniture (wardrobe, bed, sofa), carpet, bedding, futon, baby carriage, ski board, clothes pole, bicycle (Please write down "Fuyouhin (disused article)).

## ④ Harmful garbage

Dry cell (You need to put it in the specified place), fluorescence pipe, battery, fire extinguisher, throwaway lighter, spray can, portable gas cylinder (You have to make it empty), mercury thermometer and mirror.

## ⑤ Uncollectible garbage by city

Computer (Please refer to computer recycle law. Also electronic shops can advice you on it), TV, air-conditioner, washing machine, refrigerator (These four are concerned with home electronics law. Electronic shops can advice you on it), motorbike, tire, gas cylinder, bathtub, medicine, thick log and root, oil, battery, engine oil, fire extinguisher and concrete block etc.

**Littering empty can is violation of regulation**

**Fujimi city has made new regulation for clean city.**

In Fujimino city, from 1<sup>st</sup> October “Regulation for clean Fujimi city” will be into effect. In thie regulation,

- ① littering empty can is abandoned.
- ② In public place and other’s own place, you must not leave excrement of a dog.
- ③ In the road, you are not able to smoke anymore. However, it is possible in the place where smoking is allowed.

As for above three points, a violator will be instructed and adviced. Let’s contribute to make a clean city.
