

Finding cheap products in a recycle center

Risaikan

Shall we do treasure hunt for life necessities?

☆Recycle Plaza Risaikan 480 Katsuse, Oji, Fujimi City. Phone & FAX 049-254-1160

▲Display space of recycle products for lottery held in 16th every month

▲space for super-low price products

Thrown items are reborn in Risaikan.

There is a recycle center called "Recycle Plaza Risaikan" where you take about 15 minutes walk from Fujimi City Hall. This information center is to reuse things, which were thrown away, and to broaden knowledge of garbage issue to everyone.

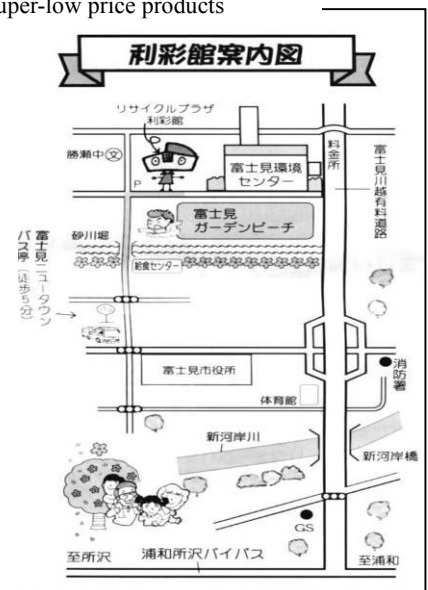

On the second floor of Risaikan, a number of reproduced furniture are displaced and sold. Also there are recycle information section, recycle studio, various kinds of recycle classes.

The display and sale of furniture are popular in Risaikan. It is because much furniture, which is expensive in furniture store, is sold at super-low price such as ¥1,000 and ¥2,000.

Especially, the new product ? (newly reused item) in every month get highly popularity.

It leads to competition among several people for each product. So Risaikan performs lottery to choose one buyer. Here is example of price

list: Table ¥300, slippers rack ¥100-¥200, kids chair ¥500, PC desk ¥500, chest of drawer ¥800, CD rack ¥100, paulownia wood drawer ¥3000. If you find good item, you need to apply for it by 15th every month. Lottery starts open from 16th. Why don't you go to Risaikan to get good cheaper products?

"Book Start" begins!

Fujimi city begins a new project called "Book Start".

"Book Start" is to give picture book to all of babies who come to have 12 month medical check.

Babies enjoy books in various ways including looking at pictures and listening to a reader's voice. To help babies to get familiar with books plays a great role in healthy growth. Through this project, Fujimi city encourages parents and children to have much time to enjoy picture books.

- Time 12 month medical check
- Place Health Improvement Center
- Eligibility residents of Fujimi city who were born after April 1 in Heisei 19 fiscal year.

●To readers of "Information Fujimino" !! Do you have "National Health Insurance"?

National Health Insurance is a reliable system when you get sick or injured.

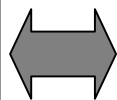

You have to have the National Health Insurance except those who take out workplace's health insurance, multi aid insurance, sailor insurance (its family is also excluded in National Health Insurance) and have social security.

Foreigners, who are qualified to stay for over 1 year in Japan and do not have other insurance, also need to take the National Health Insurance. To apply for it, please do not forget to bring your alien card.

In addition, for example, if your husband takes his company's insurance, you need to stop the National Health Insurance. For more detail, please contact health insurance section of a public office near you.

From June, fastening seat belt in back seat will be obliged

But be careful!

Due to revision of the Road Traffic Law, we will need to put on seat belt in back seats from June. There is news we need pay attention to.

In 2006, when a boy who is a 4th grade primary school student in Aichi prefecture played with seat belt in back seat, he was almost choked by the belt. If we pull this seat belt till the last, it only moves back to regular position, no any other directions. After it gets back to the position, we can pull it again. This is why such accident was occurred. Child-seat is standardized in car, so please use it with care without letting your children to play with the belt.
