Strong supporter for mothers Nursery school, childcare & kindergarten

Guidance of admission has begun

During preschool period, child-rearing is a big burden for working mothers. Nursery school, childcare and kindergarten ease the burden as possible. Fujimino International Cultural Exchange Center publishes new booklet (free) to provide information about child-rearing.

Do you want to know more about nursery school, childcare and kindergarten in Japan?

Foreign mothers living in Japan seem to have insufficient information about nursery school, childcare and kindergarten. As Japanese fathers and mothers, many of them are worried how they should bring up child and give him/her early childhood education.

Fujimino International Cultural Exchange Center aims to clear up such anxiety through distributing child-rearing information booklet which includes a lot of information for nursery school, childcare and kindergarten.

"When is grade borderline made?", "How nursery school, childcare and kindergarten are different?", "Should kindergartners bring lunch?" "Is application for admission accepted at anytime?" Especially new parents tend to have so many questions. However please don't worry so much. FICEC is about to issue information book to take your worries away! The book name has not been decided yet, but it will provide foreign parents detailed information about child-rearing in Japan.

Of course, it is not only about school. It also discusses about health and explains ways, period, name, efficiency of vaccination and shows a map of hospital nearby where vaccination is available. In September, it will be published in 6 languages (Japanese inclusive). It is free of charge and available at community center in Fujimi city, Fujimino city, Miyoshi town and Kawagoe city.

★Guidance for nursery school, childcare & kindergarten will be held ★

▲ Fujimi city Palette

▲ Fujikubo community center

▲ Fujimino communication center

▲ Kamifukuoka west communication center

If you need more information about admission, please come to this guidance in which you can hear voices from parents whose children currently go to kindergarten and nursery school.

Garbage listed in Recycling Law is not collected It seems still some people break garbage disposal rule. Now, many complaints can be heard from residents who properly follow the rule. Although television air conditioner, washing machine and refrigerator/freezer cannot be disposed as normal garbage, these items are left in garbage collection place. In order to dispose them, you need to contact city/town hall since they are all subject to recycling fee.

Since Road Traffic Law was revised in June, we are obliged to fasten seatbelt in back seat. Death rate is four times as high as we don't wear the belt. Let's prevent accidents by calling others' attention. Thus, during driving, usage of mobile phone is prohibited.

Don't forget to wear seatbelt in back seat !

How about going out to pear gathering? The harvest season, autumn is coming soon. In Fujimi city, Fujimino city and Miyoshi town, there are still many orchards. It is very enjoyable to gather various fruits. Especially pear called "Housui" is the best for now. Please contact city/town hall near you for more information and enjoy pear gathering. In Fujimi city, industry development division is in charge of inquiry.

Do you know that "20th Heisei fiscal year individual medical check" has begun from July? The medical checks are large intestine cancer, lung cancer and hepatitis virus for over 40 years old, uterine cancer for over 20 years old, breast cancer for 30 years old, and dentistry. Let's go to check health by 30th November. For further information, please contact center for health promotion (TEL: 049-252-37771).

Individual medical check has begun to keep your health good.

Japanese Language Class in FICEC If you just came to Japan, please come to see us. There is a place where you can freely communicate with many people and get started to learn Japanese for your living. The class is held from 10am - 12pm on Thursdays for free of charge. Also, please bring your friends too. Contact Number: **049-256-4290**
