Currently, 123,000 foreigners are living from 147 countries in Saitama prefecture. Three-fourths of them are permanent residents or fixed domicile residents, which are about 1.7% of population in Saitama prefecture. One out of 58 is a foreigner in Saitama.

About 20,000 foreigners are living along the Tobu tojo line. However, there are no place to support those foreigners near there. “Thank you for your collaboration party” ended on a high note

In 2013 fiscal year, three happy events overlapped for our activities. Prize of foreign minister is awarded for the international exchange activity. Issuing of living information monthly magazine in 7 languages amounted to 200, which is unusual in the whole country. Also, our NPO is certified by Saitama prefecture, which is very hard to achieve, though there are many NPO in Japan, and will be favorably treated within the Japanese tax system. To celebrate these happy events, many people gathered such as the city mayor of Fujimi-shi, at Fukutopia in Fujimino city on 15, June. All of them enjoyed local cuisine made by the foreigners and gorgeous performance of dancers. Many of valuable comments are heard and enjoyed lovely four hours.
