

Note the change of your children in daily life

We can stop bullying

In recent news, “bullying” is a big problem Adults should be careful to protect children from bullying

Prevention of bullying regulation is established in Fujimi-shi, last December. Prevention of bullying supporting system is made by citizens to save children from bullying in the whole town. FICEC offered to participate in this system to support children. However, cases of bullying tend to increase in the whole country.

Bud of bullying can sprout and produce seeds anywhere, not only in school. It is important to monitor and watch daily, to pick buds of bullying. Now we must watch well and crush bullying for the future of children.

<Followings are bullying>

- Ridicule, teasing, saying bad things, threatening words, and something nasty
- Ostracizing, ignoring in a group, scrounging the money and goods
- Hit lightly, beaten or kicked pretending playing
- Force to do or done by somebody something unpleasant, shameful or dangerous things
- Written something that never happened or unpleasant on PC or cellular phone site

If you are anxious about your child such as followings, consult with school, even for small thing

<Check list to detect bullying at an early stage>

- Does not wake up at once
- Dirt, tear or loosen button on outfits, with no clear reason
- Does not say the reason even though he/she has bruise or scratches
- Goes out in the early morning or at night frequently
- Has graffito on the child's belongings
- Spends money wastefully
- Belongings or school supplies are gone

- Has goods which you did not buy for the child
- Does not want to answer the ringing phone
- Does not talk about school life
- Belongings or a bicycle is broken
- Letters from school is teared
- Stays alone mostly
- Has no appetite
- Looks the mail sneakily
- Does not talk with the family

<Protect children and talk with them to solve the problem of bullying>

If you think your child is bullied, whether at school or not, you must protect your child, at any cost. At the same time, contact with school or any institutions concerned, and make effort to solve the problem. Keep good contact with your children so that you can listen to your children's problem when needed.
